SUMMARY

Computer Science senior (B.S. Software Engineering) at University of Washington, Bothell, graduating December 2027, seeking full-time Software/AI Engineering (New Grad) and internship roles. Full-stack builder across Python, Java, React, and TypeScript with hackathon experience shipping LLM-integrated products (OpenAI, Google Gemini) end-to-end, including a RAG-based chatbot and JSON API integrations, from Figma design through deployment and REST API/auth integration.

EDUCATION

University of Washington, Bothell

Expected Graduation: December 2027

B.S. Computer Science — Software Engineering | GPA: 3.60

Relevant Coursework: Data Structures & Algorithms I/II, Algorithm Analysis & Design, Software Engineering, Database Systems, Computer Programming I/II

TECHNICAL SKILLS

- **Languages:** Python, Java, C++, TypeScript, JavaScript, HTML, CSS
- **Frameworks & Libraries:** React, Tailwind CSS, Pygame
- **Tools & Platforms:** Git, VS Code, IntelliJ, Figma, REST APIs, JSON, OAuth/SSO, Replit DB, Azure, distributed systems
- **AI/ML:** Large Language Models (LLMs), OpenAI & Gemini APIs, Retrieval-Augmented Generation (RAG), Text-to-Speech API
- **Design & Media:** Unity, Blender, Pencil2D, UI/UX prototyping

PROJECTS

Qmail — AI Scam-Detection Email Client (PWA) | 5th Place, WSU Hackathon 2025

Tech: React, TypeScript, Tailwind CSS, OpenAI API, Replit OAuth/DB, Azure Quantum RNG | github.com/kumailrizvi890/qmail

- Led branding, UX, and build of an Apple-inspired, responsive PWA implemented in React/TypeScript/Tailwind.
- Shipped AI-powered scam detection using the OpenAI API (LLM-based content classification with JSON response parsing), SSO login (Replit OAuth), and encrypted message storage seeded by Azure Quantum RNG.

UP2DATE — AI Internship Application Optimization Platform | DubHacks Hackathon

- Originated the idea and led a 4-person team; built the front end for a platform that predicts internship posting windows from historical data to prevent missed deadlines.
- Integrated AI APIs to curate internship postings and added AI-driven resume/cover letter keyword optimization.

PawPass — Shelter & Foster Coordination Platform (PWA) |

Tech: Gemini API, Retrieval-Augmented Generation (RAG), offline-first PWA architecture | github.com/kumailrizvi890/PawPass

- Built an offline-capable PWA with pet profiles, care logs, shift checklists, and emergency alerts for shelters and fosters.
- Built a retrieval-augmented (RAG) chatbot that grounds Gemini responses in an internal pet-records database and live web data, plus AI-generated pet summaries and wellness charts.

AI Workflow Automation — Personal Operations Platform | Claude (Anthropic)

Tech: Claude, MCP tool integrations, Python, JSON, scheduled workflow automation | github.com/kumailrizvi890/Auto-Intern

- Built a multi-agent automation system on Claude, integrating 10+ MCP tools (Notion, Gmail, job-search/CRM APIs) into scheduled workflows.
- Built live-data dashboards (JSON pipelines, Chart.js) replacing manual tracking across job search and business operations.

WORK EXPERIENCE

Brand Ambassador | Instacart — Caper Carts

Jul 2024 – Oct 2024

- Supported the launch of Instacart's AI-powered Caper Carts, driving a 25% increase in customer engagement through hands-on guidance across 500+ product implementations.

Service Crew | Hot Iron Mongolian Grill

Jul 2023 – Jul 2024

- Managed restocking, cashiering, and customer service, contributing to \$5,000+ in daily sales.

LEADERSHIP & ACTIVITIES

Vice President | Pakistan Student Association, UW Bothell

Jul 2023 – Jul 2026

- Organized and led 5+ events per academic year, including Iftar gatherings and cricket matches.

Vice President | International Student Society, UW Bothell

Jul 2023 – Jul 2026

- Partnered with student groups on career/academic programming, including Global Careers CPT/OPT sessions. Founding member, Cricket Club.
